

Papers presented at the World Geothermal Congress 2005 by former fellows of the UNU-GTP (names of UNU-GTP fellows in bold).

Ábrego C, J.C., Chavarría, J.L., and **Henríquez, J.L.**: Hydraulic conceptual model for a pumping project field management plan in Berlin geothermal field, El Salvador. WGC2005, CD-ROM, 5 pp.

Agoun, A.: The continental intercalaire aquifer at the Kébili geothermal field, Southern Tunisia. WGC2005, CD-ROM, 5 pp.

Amdeberhan, Y.: Exploration results in the Tendaho geothermal field, Ethiopia. WGC2005, CD-ROM, 6 pp.

Antics, M., **Rosca, M.**: The Calimanesti-Caciulata geothermal spa, Romania. WGC2005, CD-ROM, 7 pp.

Arkan, S., **Parlaktuna, M.**: Resource assessment of Balçova geothermal field. WGC2005, CD-ROM, 10 pp.

Asturias, F.: Reservoir assessment of Zunil I and II geothermal fields, Guatemala. WGC2005, CD-ROM, 5 pp.

Axelsson, G., Björnsson, G., and **Quijano, E.**: Reliability of lumped parameter modelling of pressure changes in geothermal reservoirs. WGC2005, CD-ROM, 8 pp.

Axelsson, G., Björnsson, G., and **Montalvo, F.**: Quantitative interpretation of tracer test data. WGC2005, CD-ROM, 12 pp.

Axelsson, G., Stefánsson, V., Björnsson, G., and **Liu Jiurong**: Sustainable management of geothermal resources and utilization for 100-300 years. WGC2005, CD-ROM, 8 pp.

Baba, A., Ozcan H., and Deniz O.: Environmental impact by spill of geothermal fluids at the geothermal field of Tuzla, Canakkale-Turkey. WGC2005, CD-ROM, 8 pp.

Bahati, G., and **Tugume, F.**: Uganda geothermal energy country update. WGC2005, CD-ROM, 9 pp.

Barnett, P., Clotworthy, A., Bogie, I., Talebi, B., and **Khosrawi, K.**: Stage 2 exploration and development, NW Sabalan geothermal field, Iran. WGC2005, CD-ROM, 7 pp.

Ben Mohamed, M.: Low enthalpy geothermal resources application in the Kebili region, Southern Tunisia. WGC2005, CD-ROM, 7 pp.

Benito, F.A., Ogena, M.S., and Stimac, J.A.: Geothermal energy development in the Philippines: Country update. WGC2005, CD-ROM, 9 pp.

Beyene, K., and **Teklemariam, M.**: Geochemical monitoring of the Lakes District area. WGC2005, CD-ROM, 9 pp.

Bignall, G., **Dorj, P.**, Batkhishig, B., and Tsuchiya, N.: Geothermal resources and development in Mongolia: Country update. WGC2005, CD-ROM, 7 pp.

Bin Dezhi, **Liu Jiurong** and Zheng Keyan: The new national standard for geological exploration of geothermal resources in China. WGC2005, CD-ROM, 4 pp.

Blaga, A., **Rosca, M.**, Karytsas, C., and Mendrinou, D.: Possible geothermal district heating in Sanmartin, Romania. WGC2005, CD-ROM, 8 pp.

Bogie, I., **Khosrawi, K.**, and Talebi, B.: Geological results from the drilling of the Northwest Sabalan geothermal project, Iran. WGC2005, CD-ROM, 5 pp.

Bojadgieva, K., Hristov, H., Hristov, V., Benderev A., and Toshev, V.: Geothermal Update for Bulgaria (2000-2005). WGC2005, CD-ROM, 11 pp.

Bujakowski, W, **Wojnarowski, P.**: Recent studies of the low cretaceous geothermal reservoir in Mszczonów, Poland. WGC2005, CD-ROM, 5 pp.

Buñing, B.C., **Sarmiento, Z.F.**, Aleman, E.T., and Saw, V.S.: Casing inspection caliper surveys: Results and implications to operations in Leyte geothermal production field. WGC2005, CD-ROM, 5 pp.

Castro Z., S.: Reservoir pressure behaviour during nine years of exploitation in the Miravalles geothermal field, Costa Rica. WGC2005, CD-ROM, 5 pp.

Castro Z., S.: Transmissivity (kh) Determination in the Miravalles geothermal field, Costa Rica. WGC2005, CD-ROM, 4 pp.

Cebulak, S., **Kepinska, B.**, and Chowanec, J.: Oxyreactive thermal analysis of dispersed organic matter – a good tool for investigation of geothermal systems. WGC2005, CD-ROM, 6 pp.

Chen Jianping, and **Liu Jiurong**: The role of the government on the geothermal management in Beijing, China. WGC2005, CD-ROM, 4 pp.

Dajun Qin, Turner, J.V., Liangfeng Han, and **Zhonghe Pang**: Inferring young groundwater from deep geothermal water using CFCs and isotope data: implication for circulation of groundwater in the Xi'an geothermal field, Shaanxi Province, China. WGC2005, CD-ROM, 7 pp.

Demissie, Y.: Transient electromagnetic resistivity survey at the Geysir geothermal field South Iceland. WGC2005, CD-ROM, 4 pp.

Dorj, P.: Possibility of geothermal heating system in Arkhangai province centre, Mongolia. WGC2005, CD-ROM, 5 pp.

Dwikorianto, T., Abidin, Z., **Kamah, Y.**, Sunaryo, D., Hasibuan, A., and Prayoto: Tracer injection evaluation in Kamojang geothermal field, West Java, Indonesia. WGC2005, CD-ROM, 8 pp.

Esberto. M.B., **Austria, J.J.C.**, and **Sarmiento, Z.F.**: WellTaPPS, a web-based oracle database wellbore temperature and pressure plotting software. WGC2005, CD-ROM, 8 pp.

Eshaghpour, E.: Borehole geology and alteration mineralogy of well NWS-4, Mt. Sabalan geothermal field, NW-Iran. WGC2005, CD-ROM, 6 pp.

Fendek, M., and Fendekova, M.: Country update of the Slovak Republic. WGC2005, CD-ROM, 9 pp.

Frona, A. D.: Application of database in monitoring the performance of geothermal steam fields and power plants in the Philippines. WGC2005, CD-ROM, 12 pp.

Gabor, G., and **Zmaranda, D.**: Techniques used to design reliable control systems. A case study: Electrical geothermal plant from the University of Oradea, Romania. WGC2005, CD-ROM, 5 pp.

García, M.P., Aragón, A.A., **De Leon, J.**, Contreras, L.E., Izquierdo, M.G.: Geothermal reservoir characterization from rock properties. A case study: Cerro Prieto. WGC2005, CD-ROM, 4 pp.

- Gendenjamts, O.E.:** Geochemical study of Mongolian hot springs. WGC2005, CD-ROM, 6 pp.
- Georgieva, S.I.,** and Andreev, A.: The Erma reka low-enthalpy system (S-Bulgaria) – geothermal characteristics. WGC2005, CD-ROM, 7 pp.
- Gonet, A., **Sliwa, T.**, and Stryczek, S.: Heating agent pressure losses in a borehole heat exchanger. WGC2005, CD-ROM, 7 pp.
- Gonzalez, R.C., Alcober, E.H., Siega, F.L., Saw, V.S., Maxino, D.A., Ogena, M.S., **Sarmiento, Z.F.**, and Guillen H.V.: Field management strategies for the 700 MW Greater Tongonan geothermal field, Leyte, Philippines. WGC2005, CD-ROM, 7 pp.
- González V., C., Moya R., P., Sánchez R., E., **Vallejos R., O.**, and **Yock F., A.:** Evolution of the Miravalles geothermal field in Costa Rica after ten years of exploitation. WGC2005, CD-ROM, 13 pp.
- Grajeda, E.C.A.:** Rural uses of the geothermal resources in Guatemala since old times and present law of incentives to promote the geothermal energy as a renewable resource. WGC2005, CD-ROM, 4 pp.
- Guido, S.H.:** Check-up of the hydrogen sulphide dispersion model for the Miravalles geothermal field after four years of monitoring. WGC2005, CD-ROM, 7 pp.
- Guido, S.H.:** The ISO 14 001 environmental management system at the Miravalles geothermal field. WGC2005, CD-ROM, 3 pp.
- Guido, S.H., Vallejos R., O.E.** and Sanches R., E.: Environmental management at the Miravalles geothermal field. WGC2005, CD-ROM, 5 pp.
- Guima A. Urbino, and **Zhonghe Pang:** Inter-laboratory comparison as a tool to improve accuracy in the analysis of geothermal waters. WGC2005, CD-ROM, 5 pp.
- Gürgey, K., Simoneit, B.R.T., **Karamanderesi, I.H.**, and Varol, B.: Organic geochemistry of hydrothermal petroleum in the Menderes-Gediz graben system, Denizli-Saraykoy, western Turkey: Preliminary results. WGC2005, CD-ROM, 11 pp.
- Hajto, M.,** Gorecki, W., and Sowizdzal A.: Geological analysis and assessment of geothermal energy resources in selected Devonian, Carboniferous and Permian reservoirs in the Polish lowlands. WGC2005, CD-ROM, 6 pp.
- Hjartarson, A., Axelsson G., and **Xu Youshi:** Production potential assessment of the low-temperature sedimentary geothermal reservoir in Lishuiqiao, Beijing, P.R. of China, based on a 3-D numerical simulation study. WGC2005, CD-ROM, 12 pp.
- Iacobescu, A., **Rosca, M.**, and Draghicioiu, H.: The geothermal waters of Oradea – a cardiovascular approach. WGC2005, CD-ROM, 5 pp.
- Jun Zhao, **Chuanshan Dai,** Xinguo Li. Qiang Zhu and Lixin Li: A case study of ground source heat pump system in China. WGC2005, CD-ROM, 5 pp.
- Kamah, M.Y.,** Dwikorianto, T., Zuhro, A.A., Sunaryo, D. and Hasibuan, A.: The productive feed zones identified based on spinner data and application in the reservoir potential review of Kamojang geothermal area, Indonesia. WGC2005, CD-ROM, 6 pp.
- Kang Fengxin,** Xu Junxiang, Liu Zhan and Liang Guizhi: Geothermal resources potential assessment in Shandong Province, China. WGC2005, CD-ROM, 5 pp.

Kania, J., and Ólafsson, M.: Chemical characteristics of thermal fluids from Stykkishólmur, Iceland. WGC2005, CD-ROM, 9 pp.

Karamanderesi, I.H., and Ölcenoglu, K.: Geology of the Denizli Sarayköy (Gerali) geothermal field, western Anatolia, Turkey. WGC2005, CD-ROM, 10 pp.

Kasapoglu, H., and **Parlaktuna, M.**: A technical feasibility study on the use of Çavundur geothermal field for greenhouse heating. WGC2005, CD-ROM, 10 pp.

Kepinska, B.: Geothermal energy country update report from Poland, 2000-2004. WGC2005, CD-ROM, 10 pp.

Lagat, J., Arnorsson S., and Franszon H.: Geology, hydrothermal alteration and fluid inclusion studies of Olkaria Domes geothermal field, Kenya. WGC2005, CD-ROM, 14 pp.

Layugan, D.B., Rigor, Jr., D.M., Apuada, N.A., **Los Banos, C.F.** and Olivar, R.E.: Magnetotelluric (MT) resistivity surveys in various geothermal systems in Central Philippines. WGC2005, CD-ROM, 11 pp.

Lei Haiyan, Li Weiyi and Zhu Jialing: Research on heat storage technique of geothermal greenhouse. WGC2005, CD-ROM, 3 pp.

Li Hongying and Zhang Dezhong: Study of geothermal resources in Hebei Plain. WGC2005, CD-ROM, 6 pp.

Li Jun and Li Dan: Reservoir evaluation of the Zhouliangzhuang Geothermal Field, Tianjin, China. WGC2005, CD-ROM, 10 pp.

Liu Jijun, **Pan Xiaoping** and **Liu Jiurong**: The geothermal and its utilization in Liangxiang Geothermal Field, Beijing, China. WGC2005, CD-ROM, 3 pp.

Liu Jiurong and Chen Jianping: The geothermal resources and development plan in the Olympic Green, Beijing, China. WGC2005, CD-ROM, 4 pp.

Lkhagvadorj, I., and **Tseesuren B.**: Geothermal energy resources, present utilization and future developments in Mongolia. WGC2005, CD-ROM, 5 pp.

Los Banos, C.E.F., and Maneja, F.C.: The resistivity structure of the Mahanagdong geothermal field, Leyte, Philippines. WGC2005, CD-ROM, 7 pp.

Malolepzy, Z., Demollin-Schneiders, E. and Dominic, B.: Potential use of geothermal mine waters in Europe. WGC2005, CD-ROM, 3 pp.

Martinez-O, M.V.M., **See, F.**, and Solis, R.: Isotopic response to changes in the reservoir in Bacman geothermal production field, Philippines. WGC2005, CD-ROM, 7 pp.

Marynowski, L., Gaweda, A., and **Kepinska, B.**: Thermal regime of the Podhale geothermal system (Poland) in the light of organic matter maturation and other research methods. WGC2005, CD-ROM, 5 pp.

Martinovic, M., and Milivojevic, M.: The possibilities for electric energy production from geothermal energy in Serbia. WGC2005, CD-ROM, 4 pp.

Milivojevic, M., and **Martinovic, M.**: Geothermal energy possibilities, exploration and future prospects in Serbia. WGC2005, CD-ROM, 11 pp.

Milivojevic, M., Kronic, O., and **Martinovic, M.**: Serbian spas as a base for tourism development. WGC2005, CD-ROM, 4 pp.

Molina P., S.R., Barnett, P., Castro, M., **Guerra, E., and Henríquez, J.L.**: Silica polymerization and deposition trials at the Berlin geothermal field, El Salvador. WGC2005, CD-ROM, 4 pp.

Montalvo, F., Tianfu Xu, and Pruess, K.: TOUGHREACT code applications to problems of reactive chemistry in geothermal production-injection wells. First exploratory model for Ahuachapán and Berlín geothermal fields. WGC2005, CD-ROM, 8 pp.

Moya, P., Mietzen, F., and **Yock, A.**: Benefits from the utilization of a calcium carbonate inhibition system for production wells at the Miravalles geothermal field. WGC2005, CD-ROM, 6 pp.

Moya, P., and **Castro, S.**: Reservoir response to exploitation at the Miravalles geothermal field. WGC2005, CD-ROM, 6 pp.

Mulyadi, A., Joenoes, E.J., and Widiyari N.M.: Bedugul geothermal prospect and developments. WGC2005, CD-ROM, 12 pp.

Mwangi, M.: Country Update Report for Kenya 2000-2005. WGC2005, CD-ROM, 10 pp.

Mwawughanga, F.M.: Regulatory framework for geothermal in Kenya. WGC2005, CD-ROM, 7 pp.

Nguyen Thac Cuong, Cao Duy Giang and **Tran Trong Thang**: General evaluation of the geothermal potential in Vietnam and the prospect of development in the near future. WGC2005, CD-ROM, 8 pp.

Nguyen Tien Hung: Evaluation of geothermal resources in the Dien Bien Region (The Northwestern part of Vietnam). WGC2005, CD-ROM, 4 pp.

Noorollahi, Y., and Yousefi Sahzabi, H.: Monitoring of surface and ground water quality in geothermal exploration drilling of Meshkinshahr geothermal field, NW-Iran. WGC2005, CD-ROM, 11 pp.

Nouraliee, J.: Preliminary exploration of geothermal resources in Khorasan province, NE-Iran. WGC2005, CD-ROM, 8 pp.

Oanes, A.F., Adajar, J.C., and **Frona, A.D.**: Geothermal safety and health rules and regulations in the Philippines. WGC2005, CD-ROM, 5 pp.

Ocampo-Díaz, J.D.D., Rojas-B., M., and **León, J.V.**: Decision analysis applied to Las Tres Vírgenes geothermal field Mexico. WGC2005, CD-ROM, 5 pp.

Ofwona, C.O.: Resource assessment of Olkaria I geothermal field, Kenya. WGC2005, CD-ROM, 5 pp.

Opondo, K.M.: Scale deposition experienced in Olkaria well OW-34. WGC2005, CD-ROM, 6 pp.

Pajak, L.: Thermal energy exploitation from salt domes. WGC2005, CD-ROM, 4 pp.

Pang Zhonghe: Isotope techniques and geothermal resources management. WGC2005, CD-ROM, 6 pp.

Pasvanoğlu, S., Canik, B., and Arigün, Z.: Geothermal potential of the Banaz-Hamamboğazi thermal and mineral waters. WGC2005, CD-ROM, 8 pp.

Porras, E., Tanaka, T., Fujii, H. and Itoi, R.: Numerical modelling of the Momotombo geothermal reservoir, Nicaragua. WGC2005, CD-ROM, 16 pp.

Portugal, E., Izquierdo, G., Barragán, R.M., and **León, J.V.:** Reservoir processes inferred by geochemical, stable isotopes and gas equilibrium data in Cerro Prieto, B.C., Mexico. WGC2005, CD-ROM, 6 pp.

Ranjit, M.: Geothermal energy update of Nepal. WGC2005, CD-ROM, 10 pp.

Rasteniene, V., and **Puronas, V.:** Geothermal atlas of Lithuania. WGC2005, CD-ROM, 6 pp.

Remsik, A., and **Fendek, M.:** Thermal-energy potential of the Liptov depression. WGC2005, CD-ROM, 5 pp.

Reyes, A.G., and Jongens, R.: Tectonic settings of low enthalpy geothermal systems in New Zealand: An overview. WGC2005, CD-ROM, 9 pp.

Rivas, J.A., Castellón, J.A., and Maravilla, J.N.: Seven years of reservoir seismic monitoring at Berlín geothermal field, Usulután, El Salvador. WGC2005, CD-ROM, 8 pp.

Rogowska, A., and Szaflik, W.: Cooling load production in sorption cycles supplied by a geothermal heat source for air conditioning systems. WGC2005, CD-ROM, 12 p.

Rosario, R.A., Jr., Pastor, M.S., and **Malapitan, R.T.:** Controlled source magnetotelluric (CSMT) survey of Malabuyoc thermal prospect, Malabuyoc/Algeria, Cebu, Philippines. WGC2005, CD-ROM, 10 pp.

Rosca, M., Antics, M., and Sferle, M.: Geothermal energy in Romania: Country update 2000-2004. WGC2005, CD-ROM, 8 pp.

Saffarzadeh A., and **Noorollahi, Y.:** Geothermal development in Iran: A country update. WGC2005, CD-ROM, 7 pp.

Sanchez, D.R., Baltasar, A.S.J. and Candelaria, M.N.R.: Evaluation of chemical equilibria of calcite deposition in a geothermal well at Northern Negros geothermal project, Philippines. WGC2005, CD-ROM, 6 pp.

Sanchez, D.R., Villa, R.V. Jr., Aclober, E.H., and Gonzales, R.C.: Application of SOLVEQ in evaluating the dosing-rate of NaOH and H₂SO₄ treatment of geothermal fluids. WGC2005, CD-ROM, 5 pp.

Sánchez R., E., **Vallejos R., O.,** Rodriguez B. A., and **Guido S. H.:** Chemical treatments of fluids on the Miravalles geothermal field: investigation, application and its relationship with reservoir management. WGC2005, CD-ROM, 7 pp.

Saudi, A., and Swarieh, A.: Geothermal energy resources in Jordan, country update report. WGC2005, CD-ROM, 8 pp.

Sebesan, M., **Stanasel, O.,** Sebesan, R.: Chemical characterization of geothermal water produced by 4699 CIGHID well and its behaviour under inhibitor treatment. WGC2005, CD-ROM, 3 pp.

See, F.S., Fragata, J.J., and Solis, R.P.: The BacMan geothermal field, Philippines: Geochemical changes and operation challenges after ten years of production. WGC2005, CD-ROM, 6 pp.

Siahaan, E.E., Soemarinda, S., Fauzi, A., Silitonga, T., **Azimudin, T.**, and Raharjo, I.B.: Tectonism and volcanism study in the Minahasa compartment of the North arm of Sulawesi related to Lahendong geothermal field, Indonesia. WGC2005, CD-ROM, 5 pp.

Skapare, I., Kreslins, A., and Freimanis A.: Economical assessment for Liepaja geothermal pilot project. WGC2005, CD-ROM, 6 pp.

Smyshlyayeva, A., Karpov, G., Bortnikova S. and **Kuzmin D.**: Thermal fluid geochemistry in Caldera Academy Nauk (Kamchatka, Russia). WGC2005, CD-ROM, 8 pp.

Sta.Ana., F.X.M., **Layugan, D.B.**, Bayon, F.E.B. and Aleman, E.T.: Preliminary evaluation update of the reservoir potential of Southern Leyte geothermal project, Philippines. WGC2005, CD-ROM, 5 pp.

Stanasel, O. and Stanasel I.: Corrosion tests and the use of inhibitors in low temperature geothermal waters. WGC2005, CD-ROM, 4 pp.

Suryadarma, **Azimudin, T.**, Dwikorianto, T., and Fauzi A.: The Kamojang geothermal field: 25 years operation. WGC2005, CD-ROM, 5 pp.

Taghaddosi, M.: Thermodynamic modelling for combined ORC (organic rankine cycle) and single-flash geothermal power plants. WGC2005, CD-ROM, 5 pp.

Talebi, B., **Khosrawi, K.**, and Ussher, G.: Review of resistivity surveys from the NW Sabalan geothermal project, Iran. WGC2005, CD-ROM, 5 pp.

Talebi, B., and **Rezvani, M.**: An analysis of well measurements from the Sabalan geothermal area, NW Iran. WGC2005, CD-ROM, 5 pp.

Teklemariam, M., and **Beyene K.**: Geothermal exploration and development in Ethiopia. WGC2005, CD-ROM, 9 pp.

Vallejos R.O.: Lumped parameter model of the Miravalles geothermal field, Costa Rica. WGC2005, CD-ROM, 7 pp.

Vallejos R.O., Sánchez R., E., González V., C.: Reservoir management at the Miravalles geothermal field, Costa Rica. WGC2005, CD-ROM, 8 pp.

Vega Z., E., **Chavarría R., L.**, Barrantes V., M., **Molina Z., F.**, Hakanson, E.C., **Mora P., O.**: Geologic model of the Miravalles geothermal field, Costa Rica. WGC2005, CD-ROM, 5 pp.

Vereina, O.: Numerical modelling of the natural state of the Mutnovsky geothermal reservoir (Kamchatka, Russia). WGC2005, CD-ROM, 8 pp.

Vereina, O.: Mathematical models of the fluid flowing for geothermal and hydrocarbon wells. WGC2005, CD-ROM, 6 pp.

Villena, J.P., Alcober, E.H., Jabonillo, R.G., Gruz, D.H., Penaranda, J.R.S., **Sanchez, D.R.**, and Guillen, H.V.: Evaluation of the results of the Tongonan-1 CO₂ gas injection project, Leyte, Philippines. WGC2005, CD-ROM, 6 pp.

Wang Kun: A conceptual model of the Tianjin geothermal system based on isotopic studies. WGC2005, CD-ROM, 4 pp.

Wang Kun: Studies of the reinjection tests in basement geothermal reservoir, Tianjin, China. WGC2005, CD-ROM, 6 pp.
