

UNITED NATIONS
UNIVERSITY

GEOTHERMAL TRAINING PROGRAMME

LIST OF PUBLICATIONS OF THE UNU GEOTHERMAL TRAINING PROGRAMME, ICELAND 1979–2010

2009

Georgsson, L.S. et al. (Ed.), 2009: "Short Course on Surface Exploration for Geothermal Resources", organized by UNU-GTP and LaGeo, in Ahuachapan and Santa Tecla, El Salvador, 17-30 October, 2009. UNU-GTP SC-09. CD-ROM.

Georgsson, L.S. et al. (Ed.), 2009: "Short Course IV on Exploration for Geothermal Resources", organized by UNU-GTP, KenGen and GDC, at Lake Naivasha, Kenya, November 1 - 22, 2009. UNU-GTP SC-10. CD-ROM.

Tesha, 2009: Absorption refrigeration system as an integrated condenser cooling unit in a geothermal power plant. Report 1, 68 pp.

Swandaru, R.B., 2009: Modelling and optimization of possible bottoming units for general single flash geothermal power plants. Report 2, 29 pp.

Adale, M., 2009: Evaluation of maintenance management through benchmarking in geothermal power plants. Report 3, 52 pp.

Renderos, R.E., 2009: Carbon dioxide fixation by calcite and diffusive degassing in the southern region of the Berlín geothermal system, El Salvador. Report 4, 41 pp.

Abdillhi Elmi, S., 2009: Gallium and germanium distribution in geothermal water. Report 5, 1-14.

Abdollahzadeh Bina, F., 2009: Geothermal resource assessment of the NW-Sabalan field, Iran, through well testing. Report 6, 15-44.

Al-Sabri, A.M., 2009: Geological and geothermal mapping in Djúpatn-Vigdísarvellir area SW-Iceland. Report 7. 45-64.

Cherutich, S.K., 2009: Rig selection and comparison of top drive and rotary table drive systems for cost effective drilling projects in Kenya. Report 8, 65-84.

Chiragwile, S.A., 2009: Interpretation of resistivity soundings in the Krýsuvík high-temperature geothermal area, SW-Iceland using joint-inversion of TEM and MT data. Report 9, 85-124.

Dolgorjav, O., 2009: Geochemical characterization of thermal fluids from the Khangay area, Central Mongolia. Report 10, 125-150.

Estévez, J.R., 2009: Electrical protection in geothermal power plant projects. Report 11, 151-178.

Huang Jiachao, 2009: Assessment of geothermal resources in Xianyang, Shaanxi Province, China: lumped parameter modelling and predictions. Report 12, 179-198.

Kayad, M.A., 2009: Injection test and early production history of well THG-01 at Theistareykir geothermal field, N-Iceland. Report 13, 199-222.

- Kombe, C., 2009: Planning an overhaul of the existing, non-operating Kapisya geothermal binary power plant (using perchloro-ethylene) after a prolonged dormancy period. Report 14, 223-254.
- Kurti, A., 2009: Geothermal district heating in a part of Elbasan city, Albania. Report 15, 255-288.
- Lichoro, C.M., 2009a: Joint 1-D inversion of TEM and MT data from Olkaria Domes geothermal area, Kenya. Report 16, 289-318.
- Lichoro, C.M., 2009b: Appendices to the report: Joint 1-D inversion of TEM and MT data from Olkaria Domes geothermal area, Kenya. Report 16, 45 pp.
- Malimo, S.J., 2009: Interpretation of geochemical well test data for wells OW-903b, OW-904b and OW-909, Olkaria Domes, Kenya. Report 17, 319-344.
- Molina M., A. III, 2009: Assessment of the northern part of the Los Azufres geothermal field, Mexico, by lumped parameter modelling and Monte Carlo simulation. Report 18, 345-364.
- Mora S., R., 2009: Design of monitoring and control systems for geothermal steam gathering systems - comparison with the existing system for the Miravalles geothermal field. Report 19, 365-394.
- Muhwezi, K.D., 2009: The potential relationship of some geothermal fields in Uganda. Report 20, 395-434.
- Ngaruye, J.C., 2009: Geological and geothermal mapping of the Slaga-Arnarvatn area, Reykjanes peninsula, SW-Iceland. Report 21, 435-460.
- Nyago, J., 2009: 1-D joint inversion of MT and TEM data with examples from the Krýsuvík area, Reykjanes Peninsula, SW-Iceland. Report 22, 461-494.
- Ouali, S., 2009: Thermal conductivity in relation to porosity and geological stratigraphy. Report 23, 495-512.
- Ruiz M., J., 2009: Reassessment of the production capacity of two geothermal fields in Nicaragua. Report 24, 513-534.
- Rutagarama, U., 2009: Assessing generating capacity of Rwanda geothermal fields from green field data only. Report 25, 535-558.
- Wang Shufang, 2009: Three-dimensional model of the Niutuozen geothermal system, Hebei Province, China. Report 26, 559-583.

2008

- Georgsson, L.S. et al. (Ed.), 2008: "30th Anniversary Workshop of the United Nations University Geothermal Training Programme" organized by UNU-GTP, Reykjavik, August 26-27, 2008. CD-ROM.
- Fridleifsson, I.B. et al (Ed.), 2008: "Short Course II on Surface Exploration for Geothermal Resources" organized by UNU-GTP and KenGen in Naivasha, Kenya, 2-17 November 2007. UNU-GTP SC-05. CD-ROM.
- Georgsson, L.S. et al. (Ed.), 2008: "Short Course III on Exploration for Geothermal Resources", organized by UNU-GTP and KenGen, at Lake Naivasha, Kenya, October 24 - November 17, 2008. UNU-GTP SC-07. CD-ROM.

- Georgsson, L.S. et al. (Ed.), 2008: "Short Course on Geothermal Project Management and Development", organized by UNU-GTP, KenGen and MEMD-DGSM, at the Imperial Botanical Beach Hotel, Entebbe, Uganda, November 20-22, 2008. UNU-GTP SC-08. CD-ROM.
- Elmi H., D., 2008: Geothermal resource assessment through well testing and production response modelling. Report 1, 73 pp.
- Austria, J.J.C., 2008: Production capacity assessment of the Bacon-Manito geothermal reservoir, Philippines. Report 2, 86 pp.
- Sun C., 2008: Feasibility study of geothermal utilization of Yangbajain field in Tibet autonomous region, P.R.China. Report 3, 89 pp.
- Jalili Nasrabadi, S., 2008: Open heat exchanger for improved energy efficiency in the heating of hot spas. Report 4, 64 pp.
- Bore, C.K., 2008: Analysis of management methods and application to maintenance of geothermal power plants. Report 5, 60 pp.
- Rezvani Khalilabad, M., 2008: Characterization of the Hellisheidi-Threngsli CO₂ sequestration target aquifer by tracer testing. Report 6, 52 pp.
- Wang Kun, 2008: Lectures on geothermal areas in China. Report 7, 66 pp.
- Ahmed Youssouf, M., 2008: Borehole geology and hydrothermal mineralisation of well HN-08, Hellisheidi geothermal field, SW-Iceland. Report 8, 1-30.
- Al-Dukhain, A.M.H., 2008: Geological and geothermal mapping in the Trölladyngja – Sog area, SW-Iceland. Report 9, 31-52.
- Al-Kohlani, T.A.M., 2008: Geochemistry of thermal waters from the Al-Lisi – Isbil geothermal field, Dhamar governorate, Yemen. Report 10, 53-76.
- Budi Kesuma Adi Putra, I.M., 2008: Drilling practice with aerated drilling fluid: Indonesia and Iceland geothermal fields. Report 11, 77-100.
- Cao Fenglan, 2008: Comparison of two different approaches for a geothermal heating system. Report 12, 101-124.
- Chen Gongxin, 2008: The isotopic and chemical characteristics of geothermal fluids from the Western Fjords, Iceland and two selected hot spring areas in the Jiangxi province, SE-China. Report 13, 125-156.
- Daba Hora, G., 2008: Comparative study on the high-temperature fields of Hveravellir in Iceland and Tendaho in Ethiopia. Report 14, 157-176.
- Dereinda, F.H., 2008: CO₂ emissions from the Krafla geothermal area, Iceland. Report 15, 177-188.
- Escobar, R.N., 2008: Main considerations in the design of a geothermal drilling platform, El Salvador, C.A.. Report 16, 189-220.
- Gharaibeh, A.A.J., 2008: Heat source study and geothermal reservoir assessment for the Zarqa-Ma'in – Dab'a, area Central Jordan. Report 17, 221-276.
- Guo Gaoxuan, 2008: Assessment of the Hofstadir geothermal field, W-Iceland, by lumped parameter modelling, Monte Carlo simulation and tracer test analysis. Report 18, 277-280.

Han Zheng, 2008: Reservoir assessment of the Xiongqian geothermal field, Hebei province, China. Report 19, 281-304.

Hernández M., O., 2008: Feasibility of operation of the existing geothermal resource of the south-east sector of Miravalles geothermal field. Report 20, 305-330.

Karani, T.W., 2008: Improved operations and reliability by upgrading the Olkaria I control system and installing remote monitoring and control systems for the Olkaria I and II geothermal power plants in Kenya. Report 21, 331-364.

Lopez C., G.A., 2008: Maintenance systems of the Ahuachapan power plant, El Salvador and the Svartsengi power plant, Iceland, comparison and optimization proposal for the Ahuachapan maintenance system. Report 22, 365-386.

Lorenzo P., C.D., 2008: Borehole geophysics and geology of well H-43, the Los Humeros, Puebla geothermal field, México. Report 23, 387-426.

Mbogoni, G.J., 2008: Geological study on sedimentary sequence lithology, depositional history and hydrothermal alteration at Sog, Trölladyngja area, SW-Iceland. Report 24, 427-446.

Nyakecho, C., 2008: Preliminary environmental impact assessment for the development of the Buranga geothermal prospect, Uganda. Report 25, 447-476.

Ruiz C., J.F., 2008: Geochemical interpretation of the Masaya-Granada-Nandaime chemical data, Nicaragua. Report 26, 477-518.

Uhorakeye, T., 2008: Prefeasibility design of an integrated single-flash binary pilot power plant in NW-Rwanda. Report 27, 519-538.

Weldeyohannes H., D., 2008: Origin of geothermal waters and subsurface temperature estimates in the Southern Lowlands of Iceland. Report 28, 539-562.

Zhang Wei, 2008: Design and operation of a geothermal floor heating system in Tianjin, China. Report 29, 563-581.

2007

Fridleifsson, I.B. et al. (Ed.), 2007: "Short Course on Geothermal Development in Central America: Resource Assessment and Environmental Management" organized by UNU-GTP and LaGeo in San Salvador, El Salvador, November 25 - December 1, 2007. UNU-GTP SC-04. CD-ROM.

Georgsson, L.S. (Ed.), 2007: "Short Course II on Surface Exploration for Geothermal Resources" organized by UNU-GTP and KenGen in Naivasha, Kenya, 2-17 November 2007. UNU-GTP SC-05. CD-ROM.

Were, J.O. 2007: The speciation of trace elements in spent geothermal fluids and implications for environmental health around Olkaria, Kenya. Report 1, 73 pp.

Rodriguez, J.A., 2007: Lectures on geothermal in Central America. Report 2, 41 pp.

Abdelghafoor, M. 2007: Geological and geothermal mapping in Sveifluháls area, SW-Iceland. Report 3, 1 - 23.

Ábrego Castillo, J.C. 2007: Cost estimation of using an absorption refrigeration system with geothermal energy for industrial applications in El Salvador. Report 4, 25 - 54.

- Chow Pineda, I.G. 2007: Gaussian modelling of the dispersion of hydrogen sulphide from Hellisheidi power plant, Iceland. Report 5, 55 - 78.
- Gebregiorgis, S. 2007: Energy analysis and plant operation optimization of the Aluto Langanu plant, Ethiopia, related to plant problems. Report 6, 79 - 110.
- Ghaderi, I. 2007: Route selection and pipeline design for a 50 MWe power plant in Sabalan, Iran. Report 7, 111 -144.
- Khubaeva, O.R. 2007: Geothermal mapping in the Krýsuvík geothermal field, SW-Iceland. Report 8, 145 - 156.
- Kodhelaj, N. 2007: The Llixha Elbasan hot springs in Albania, study of temperature conditions and utilization calculations. Report 9, 157 - 197.
- Koestono, H. 2007: Borehole geology and hydrothermal alteration of well HE-24, Hellisheidi geothermal field, SW-Iceland. Report 10, 199 -224.
- Lemma, Y. 2007: Magnetotelluric and transient electromagnetic method in geothermal exploration, with an example from Tendaho geothermal field, Ethiopia. Report 11, 225 -256.
- Mawejje, P. 2007: Geothermal exploration and geological mapping at Seltún in Krýsuvík geothermal field, Reykjanes Peninsula, SW-Iceland. Report 12, 257 - 276.
- Mirzaei Zarandi, S.S.M. 2007: Waste water disposal at the Nesjavellir geothermal power plant, apparent problems and possible solutions. Report 13, 277 - 301.
- Mnjokava, T.T. 2007: Interpretation of exploration geochemical data for geothermal fluids from the geothermal field of Rungwe volcanic area, SW-Tanzania. Report 14, 303 - 332.
- Mutonga, M.W. 2007: The isotopic and chemical characteristics of geothermal fluids in the Hellisheidi, Hveragerdi and Nesjavellir fields, SW-Iceland. Report 15, 333 - 370.
- Nietzen S., F.A. 2007: Neutralization process of acid wells: Design of the sampling system, Miravalles geothermal field, Costa Rica. Report 16, 371 - 390.
- Nugroho, A.J. 2007: Evaluation of waste brine utilization from LHD Unit III for electricity generation in Lahendong geothermal field, Indonesia. Report 17, 391 - 415.
- Padilla, E.K. 2007: Preliminary study on emission abatement and use of gas from geothermal power plants in El Salvador. Report 18, 417 - 446.
- Rahmani, M.R. 2007: Assessment of calcite scaling potential in the geothermal wells of the NW-Sabalan geothermal prospect, NW-Iran. Report 19, 447 - 460.
- Rivera, M.A. 2007: Design considerations for reliable electrical, control and instrumentation systems in geothermal power plants with emphasis on hydrogen sulphide related problems. Report 20, 461 - 490.
- Sheng Zhongjie 2007: Environmental impact of geothermal utilization in the Tianjin Binhai area, China. Report 21, 491 - 520.
- Teklesenbet, A. 2007: Transient electromagnetic and magnetotelluric geophysical methods in the Hengill area, SW-Iceland. Report 22, 521 - 554.

Wanjohi, A.W. 2007: Monitoring of micro earthquakes and acoustic emissions within the Hengill-Hellisheidi geothermal reservoirs, June-August 2007. Report 23, 555 -580.

2006

Fridleifsson, I.B. and Henriquez, J.L. (Ed.), 2006: "Workshop for Decision Makers on Geothermal Projects in Central America" organized by UNU-GTP and LaGeo in San Salvador, El Salvador, November 26 - December 2, 2006. UNU-GTP SC-02. CD-ROM.

Pang, Z., and Armannsson, H. (editors), 2006. Analytical procedures and quality assurance for geothermal water chemistry. UNU-GTP report 1, 172 pp.

Opondo, K., 2006: Corrosive species and scaling in wells at Olkaria, Kenya and Reykjanes, Svartsengi and Nesjavellir, Iceland. UNU-GTP, report 2, 76 pp.

Hole, H. 2006: Lectures on geothermal drilling and direct uses. UNU-GTP, report 3, 32 pp.

Ahmadi Nassirabad, A., 2006: Civil works in geothermal drill site. Report 4, 1-20.

Angcoy, E.C. Jr., 2006: An experiment on monomeric and polymeric silica precipitation rates from supersaturated solutions. Report 5, 21 - 50.

Atas, Ö.C., 2006: Geochemical and isotopic studies of the thermal waters from the Tröllaskagi field, N-Iceland. Report 6, 51 - 82.

Bandoro Swanduru, R., 2006: Thermodynamic analysis of preliminary design of power plant unit I Pathua, W-Java, Indonesia. Report 7, 83 - 119.

Barrantes, M.V., 2006: Geo-environmental aspects for the development of the Pailas Geothermal field, Guanacaste, Costa Rica. Report 8, 121 - 154

Cisne Altamirano, J.I., 2006: Sampling and analyses of geothermal steam and geothermometer applications in KraflaTheistareykir, Reykjanes and Svartsengi, Iceland . Report 9, 153 - 169.

Ibrahimova Shahmar, I., 2006: Application of GIS to available information on thermal waters in Azerbaijan Republic and usefulness for environmental assessment. Report 10, 171 - 196

Javzan, S., 2006: Geothermal project development with a case study from Tsetserleg, Mongolia. Report 11, 197 - 218.

Mainza, D., 2006: The chemistry of geothermal waters in SW Uganda. Report 12, 219 - 244.

Mayalla, J.W.M., 2006: Geothermal mapping in the Hromundartindur area, SW-Iceland. Report 13, 245 - 260.

Ndege, J.W., 2006: Maintenance challenges of a geothermal power station: A case for Olkaria II power plant, Kenya. Report 14, 261 - 290.

Nyagah, E.M., 2006: Hydrogen sulphide dispersion and modelling for Nesjavellir power station using Gaussian and numerical models. Report 15, 291 - 314.

Okedi, J.P.O., 2006: Reservoir evaluation of the Ölkelduháls geothermal field, Hengill area, SW-Iceland. Report 16, 315 - 355.

Pendon, R.R., 2006: Borehole geology and hydrothermal mineralisation of well HE-22, Ölkelduháls field, Hengill area, SW-Iceland. Report 17, 357 - 390.

Rakhshani Moghaddam, A., 2006: A conceptual design of geothermal combined cycle and comparison with single flash power plant for well NWS-4 in Iran. Report 18, 391 - 428.

Rodríguez Badilla, A., 2006: Amorphous iron silicate scales in surface pipelines: Characterization and geochemical constraints on formation conditions in the Miravalles geothermal field, Costa Rica. Report 19, 429 - 452.

Tesha., 2006: Utilization of brine water for copra drying in Lahendong geothermal field, Indonesia. Report 20, 453 - 470.

Tsend-Ayush, N., 2006: Resistivity survey in the Hengill area, SW-Iceland. Report 21, 471 - 500.

Wang Wei., 2006: Geochemical study of the Xianyang low-temperature geothermal field, Shannxi province, China. Report 22, 501 - 522.

Yang Quanhe., 2006: Reservoir evaluation for the Lishuiqiao-Beiyuan geothermal system in Beijing, China, based on a six years production. Report 23, 523 - 546.

Yani, A., 2006: Numerical modelling of the Lahendong geothermal system, Indonesia. Report 24, 547 - 580.

2005

Fridleifsson, I.B. (Ed.), 2005: "Workshop for Decision Makers on Geothermal Projects and their Management" organized by UNU-GTP and KenGen in Naivasha, Kenya, 14-18 November 2005. UNU-GTP SC-01. CD-ROM.

Noorollahi, Y., 2005: Application of GIS and remote sensing in exploration and environmental management of Námafjall area, N-Iceland. MSc thesis, report 1, 124 pp.

Dorj, P., 2005: Thermoeconomic analysis of a new geothermal utilization CHP plant in Tsetserleg, Mongolia, MSc thesis, report 2, 82 pp.

Bahati, G., 2005: Preliminary Environmental Impact Assessment for the development of Katwe and Kibiro geothermal prospects, Uganda. MSc thesis, report 3, 140 pp.

Mwangi, M.N., 2005: Lectures on geothermal in Kenya and Africa. Report 4, 58 pp.
Bore, K.C. Exergy analysis of Olkaria I power plant, Kenya. Report 5, 1-37.

Elmi, D., 2005: Analysis of geothermal well test data from the Asal Rift area, Republic of Djibouti, Report 6, 39-59.

Gebrehiwot, K., 2005: Geothermal mapping in western Ölkelduháls high-temperature field, SW-Iceland. Report 7, 61-82.

Hartanto, D.B., 2005: Borehole geology and alteration mineralogy of well HE-11, Hellisheidi geothermal field, SW-Iceland. Report 8, 83-109..

Hosseini-Pourazad., 2005: H. High-temperature geothermal well designing. Report 9, 111-123.

Karim, M.A., 2005: Assessment of scaling formation in the steam pipeline of production well KMJ-67, Kamojang geothermal field, W-Java, Indonesia. Report 10, 125-136.

Kebede, S., 2005: Preliminary Environmental Impact Assessment for the development of the Tendaho geothermal area, Ethiopia. Report 11, 137-162.

- Lashin, A., 2005: Reservoir parameter estimation using well logging data and production history of the Kaldárholt geothermal field, S-Iceland. Report 12, 163-200.
- Minervini, B.E., 2005: Geothermal tourist park in the Berlín field, El Salvador, assessment of the use of geothermal brine for bathing and spa. Report 13, 201-246.
- Natukunda, J.F., 2005: Geothermal mapping in eastern Ölkelduháls field, Hengill area, SW-Iceland. Report 14, 247-264.
- Radmehr, B., 2005: Preliminary design of a proposed geothermal power plant in the NW-Sabalan area, Azerbaijan-Iran. Report 15, 265-296.
- Rodriguez S., V.A., 2005: Analysis of temperature and pressure measurements and production data for Berlín geothermal field, El Salvador. Report 16, 297-332.
- Strelbitskaya, S.B., 2005: Interpretation of chemical composition of geothermal fluids for Baransky volcano, Iturup Island, Russia. Report 17, 333-351.
- Sun Caixia., 2005: A different approach for an existing geothermal utilization project in Beijing. Report 18, 353-372.
- Sun Ying., 2005: Conceptual model and potential assessment of the Xiaotangshan geothermal field, Beijing, China. Report 19, 373-396.
- Taskin, V.V., 2005: Assessment of calcite and amorphous silica scaling potential from production wells in the Mutnovsky geothermal field, Kamchatka, Russia. Report 20, 397-408.
- Wameyo, P.M., 2005: Magnetotellurics and transient electromagnetic methods in geothermal prospecting with examples from Menengai, Kenya. Report 21, 409-439.
- Wang Liancheng., 2005: Multiple geothermal utilization in Tianjin Olympic centre. Report 22, 441-454.
- Yu Yuan., 2005: Environmental impacts of temporal changes in geochemistry in the Urban geothermal field, Beijing, China. Report 23, 455-478.
- Yurchenko, S.G., 2005: Environmental impact of geothermal development in the Goryachy Plyazh area, Kunashir Island, Russia. Report 24, 479-502.

2004

- Lagat, J.K., 2004: Geology, hydrothermal alteration and fluid inclusion studies of Olkaria Domes geothermal field, Kenya. MSc thesis, report 1, 79 pp.
- Wetang'ula, G.N., 2004: Assessment of geothermal wastewater disposal effects, case studies: Nesjavellir (Iceland) and Olkaria (Kenya) fields. MSc thesis, report 2, 84 pp.
- Asaye, M., 2004: Methods to evaluate flow and scaling in geothermal systems with reference to the case: Aluto Langano power plant, Ethiopia. Report 3, 1-24.
- Burentsagaan, B., 2004: Geothermal evaluation of the Geldinganes area in SW-Iceland and proposal for assessment of the Shivert hot spring area in Mongolia. Report 4, 25-56.

- Chelnokov, G., 2004: Interpretation of geothermal fluid compositions from Mendeleev volcano, Kkunashir, Russia. Report 5, 57-82.
- Ganbat, E., 2004: Geothermal investigations at the Ásgardur farm, Reykholtisdalur, W-Iceland. Report 6, 83-98.
- Jalili-Nasrabadi, S., 2004: Geothermal district heating and swimming pool in the Sabalan area, Iran. Report 7, 99-130.
- Lei Haiyan., 2004: Simulation of district heating in Tianjin, China. Report 8, 131-158.
- Li Junfeng., 2004: Environmental impact of geothermal development in Tianjin, China. Report 9, 159-182.
- Luo Heng., 2004: Preliminary environmental impact assessment for the Hágöngur high-temperature area, Central Iceland. Report 10 183-208.
- Moeljanto., 2004: Evaluation of the environmental impact at the Kamojang geothermal field in Indonesia applying the EMS of ISO 14001. Report 11, 209-238.
- Mwawongo, G.M., 2004: Infield re-injection strategies in Olkaria Kenya, based on tracer studies and numerical modelling. Report 12, 239-266.
- Ogola, P.F.A., 2004: Appraisal drilling of geothermal wells in Olkaria Domes (IV), Kenya - Baseline studies and socioeconomic impacts. Report 13, 267-306.
- Omer I, M., 2004: Geothermal manifestations and structures in Innstidalur and Middalur, SW-Iceland. Report 14, 307-324.
- Seifu, A., 2004: Evaluation of recent temperature and pressure data from wells in Tendaho geothermal field, Ethiopia and from well HG-1 at Hágöngur, Iceland. Report 15, 325-348.
- Siregar, P.H.H., 2004: Optimization of electrical power production process for the Sibayak geothermal field, Indonesia. Report 16, 349-376.
- Xu Wei., 2004: Application of geochemical methods in low-temperature geothermal areas: Strandir area, NW- Iceland and the Liangxiang field, Beijing, China. Report 17, 377-402.
- Yohannes B.E., 2004: Geochemical interpretation of thermal water and gas samples from Krýsuvík, Iceland and Alid, Eritrea. Report 18, 403-438.
- Yousefi-Sahzabi, H., 2004: Application of GIS in the Environmental Impact Assessment of Sabalan geothermal field, NW-Iran. Report 19, 439-474.
- Zuhro, A.A., 2004: Numerical modelling of the Kamojang geothermal system, Indonesia. Report 20, 475-492.

2003

- Fridleifsson, I.B., and Gunnarsson, M.V. (Ed.), 2003: Lectures on the sustainable use and operating policy for geothermal resources. Short course prior to the International Conference IGC2003 on "Multiple integrated use of geothermal resources". Publication 1, 255 pp.

Fridleifsson, I.B. (Ed.), 2003: International Geothermal Conference IGC2003 "Multiple integrated uses of geothermal resources" held in Iceland 14-17 September 2003 to celebrate the 25th anniversary of the United Nations University's Geothermal Training Programme. CD-ROM.

Kepinska, B., 2003: Lectures on geothermal resources and utilization in Poland and Europe. Report 2, 106 pp. (published in 2004).

Asturias, F., 2003: Reservoir assessment of Zunil I and II geothermal fields, Guatemala. Report 3, 1-32.

Roșca, M., 1993: Economical and technical assessment of some geothermal development scenarios for Oradea, Romania. Report 13, 44 pp.

Sanchez, D.R., 1993: Application of Cl, B tracers and geoindicators to delineate some production characteristics of Mt. Labo geothermal system, Philippines. Report 14, 42 pp.

Urmeneta, N.N.A., 1993: Natural state simulation of the Mahanagdong geothermal sector, Leyte, Philippines. Report 15, 31 pp.

Zheng Xilai, 1993: Geothermometry and mineral equilibria of thermal waters from the Guanzhong basin, China. Report 16, 33 pp.

1992

Fridleifsson, I.B., and Björnsson, J., 1992: Eleventh annual report of the Geothermal Training programme in Iceland, March 1991 - February 1992. Report 1,

Wang Jiyang, 1992: Lectures on geothermal resources and development in China. Report 2, 36 pp.

Arévalo M., J.A., 1992: Geothermal drilling techniques. Report 3, 50 pp.

Dai Chuanshan, 1992: Numerical modelling of the Botn low temperature geothermal field, N-Iceland. Report 4, 26 pp.

Fendek, M., 1992: Distributed parameter models for the Laugarnes geothermal field, SW-Iceland and the central depression of Danube Basin, S-Slovakia. Report 5, 41 pp.

Gazo, F.M., 1992: Reservoir assessment of the Mak-Ban geothermal field, Luzon, Philippines. Report 6, 32 pp.

Grajeda, C., 1992: Interpretation of hydrochemical results from the Zunil I geothermal field, Guatemala. Report 7, 34 pp.

Lacanilao, A.M., 1992: Computer interface for digital data acquisition in geothermal well logging. Report 8, 46 pp.

Ouma, P.A., 1992: Steam gathering system for the NE-Olkaria geothermal field, Kenya - preliminary design. Report 9, 47 pp.

Agonga, O., 1992: Geothermal geology: Stratigraphy and hydrothermal alteration of well OW-716, Olkaria geothermal area, Kenya. Report 10, 44 pp.

Pingtsoe Wangyal 1992: Calcite deposition related to temperature and boiling in some Icelandic geothermal wells. Report 11, 33 pp.

Sagun, M.P., 1992: Binary power generation from waste heat: A feasible improvement to operating geothermal power plants. Report 12, 50 pp.

Vargas, J.R., 1992: Geology and geothermal considerations of Krisuvik valley, Reykjanes Peninsula, Iceland, Report 13, 35 pp.

Wu Ming, 1992: Geothermal assessment of the Glerardalur and Svartsengi fields. Report 14, 31 pp.

1991

Fridleifsson, I.B., and Björnsson, J., 1991: Eleventh annual report of the Geothermal Training Programme in Iceland, March 1990 - February 1991. Report 1,

Arusei, M., 1991: Hydrochemistry of the Olkaria and Eburru geothermal fields, Kenyan Rift Valley. Report 2, 40 pp.

- Bai Liping, 1991: Chemical modelling programs for predicting calcite scaling, applied to low temperature geothermal waters in Iceland. Report 3, 45 pp.
- Benito, F.A., 1991: Interpretation of Schlumberger soundings from Mt. Cagua, Philippines and TEM soundings from Svartsengi-Eldvorp, SW-Iceland. Report 4, 42 pp.
- Dlugosz, P., 1991: Simulation of reservoir behaviour of the geothermal fields: Hamar, N-Iceland and Podhale, S-Poland. Report 5, 36 pp.
- Franko, J., 1991: The cooling of the Selfoss geothermal reservoir in southern Iceland. Report 6, 31 pp.
- Gladysz, M., 1991: Distributed parameter models: The Glerardalur geothermal field, N-Iceland; the Podhale geothermal field, S-Poland. Report 7, 38 pp.
- Kunaruk, U., 1991: Design and selection of deep well pumps for geothermal wells. Report 8, 51 pp.
- Papic, P., 1991: Scaling and corrosion potential of selected geothermal waters in Serbia. Report 9, 47 pp.
- Porras, M. E., 1991: Production characteristics of the Momotombo geothermal field, Nicaragua. Report 10, 54 pp.
- Pullinger, C.R., 1991: Geological and geothermal mapping at Nupafjall and Svartsengi in the Reykjanes Peninsula, SW-Iceland. Report 11, 45 pp.
- Wang Guiling, 1991: Modelling of the Urridavatn low-temperature geothermal system in E-Iceland. Report 12, 40 pp.
- Wang Liangshu, 1991: Temperature distribution and simulation of the Bodmodsstadir geothermal field in S-Iceland. Report 13, 39 pp.
- Zhao Ping, 1991: Gas geothermometry and chemical equilibria of fluids from selected geothermal fields. Report 14, 46 pp.
- Hersir, G.P. and Björnsson, A., 1991: Geophysical exploration for geothermal resources. Principles and application. Report 15, 94 pp.

1990

- Fridleifsson, I.B., and Björnsson, J., 1990: Eleventh annual report of the Geothermal Training Programme in Iceland, March 1989 - February 1990. Report 1,
- Menjoz, A., 1990: Lectures on the characterization and the exploitation of geothermal reservoirs in France. Report 2, 89 pp.
- Bazaale-Dolo, A.S., 1990: Geothermal mapping at Reykjakot in Ölfus, SW-Iceland. Report 3, 24 pp.
- Bojadgieva, K., 1990: Interpretation of the temperature data of the Ellidaár geothermal field, SW-Iceland. Report 4, 36 pp.
- Barbosa, M.G., 1990: Analysis of wellbore temperatures and pressures in the Momotombo geothermal field, Nicaragua. Report 5, 29 pp.

Gonzalez, S.M., 1990: Initial temperature distribution in Momotombo geothermal field, Nicaragua. Report 6, 43 pp.

Herrera, C.D., 1990: Gravity and magnetic assessment of the Tenorio area, Costa Rica. Report 7, 35 pp.

Mahgoub, M.M., 1990: Database for wells and utilization of low temperature geothermal sources. Report 8, 30 pp.

Martinovic, M., 1990: Lumped and distributed models of the Mosfellssveit geothermal field, SW-Iceland. Report 9, 47 pp.

Milicevic, B., 1990: Interpretation and modelling of the temperature distribution at Laugaland in Thelamörk, N-Iceland. Report 10, 36 pp.

Onacha, S.A., 1990: Application of Schlumberger sounding at Eburru, Kenya and TEM and MT methods at Bakki, S-Iceland. Report 11, 52 pp.

Penev, I., 1990: Lumped and distributed models of the Ellidaár geothermal field, SW-Iceland. Report 12, 38 pp.

Simiyu, S.M., 1990: The gravity structure of Eburru, Kenya. Report 13, 39 pp.

1989

Fridleifsson, I.B., and Björnsson, J., 1989: Tenth annual report of the Geothermal Training Programme in Iceland, March 1988 - February 1989. Report 1,

Wang Li, 1989: Study of a district heating system in Akureyri, Iceland. Report 2, 55 pp.

Rachedi, M., 1989: Design of a district heating system for the Hammam Righa spa, Algeria. Report 3, 56 pp.

Tampubolon, T., 1989: Analysis of well test data from Indonesia and Iceland. Report 4, 43 pp.

Mora, P.O., 1989: Borehole geology and alteration mineralogy of well PGM-5 Miravalles, Guancaste, Costa Rica. Report 5, 49 pp.

Khairah, A.E., 1989: Borehole geology of well Asal-5, Asal geothermal field, Djibouti. Report 6, 31 pp.

Gorgieva, M., 1989: Chemical geothermometers and mineral equilibria of some hot waters in Yugoslavia. Report 7, 61 pp.

Abouriche, M., 1989: Temperature measurements at the surface and in shallow drillholes. Report 8, 46 pp.

Reyes, V.P., 1989: Resistivity methods with application to Planillas geothermal field, Mexico. Report 9, 56 pp.

Fournier, R.O., 1989: Lectures on geochemical interpretation of hydrothermal waters. Report 10, 73 pp.

Ottlik, P., 1989: Lectures on geothermics in Hungary. Report 11, 45 pp.

1988

Gudmundsson, J.S., and Björnsson, J., 1988: Ninth annual report of the Geothermal Training Programme in Iceland, March 1987 - February 1988. Report 1.

Leon, V.J., 1988: Deliverability of geothermal reservoirs. Report 2, 69 pp.

Dokuz, I., 1988: Simulation of geothermal district heating systems. Report 3, 47 pp.

Easwaran, N.E., 1988: Combined use of geothermal energy in series and parallel. Report 4, 62 pp.

Pang Zong-he, 1988: Multiple fluid-mineral equilibrium calculations and their applications to geothermometry and hydrochemical processes in geothermal systems. Report 5, 73 pp.

Pena, R.O., 1988: Interpretation of resistivity soundings from San Ignacio, Honduras. Report 6, 78 pp.

Tole, M.P., 1988: Geochemical sampling, laboratory analysis, and mineral equilibria calculations for fluids from selected areas in Iceland. Report 7, 52 pp.

Arnason, K., and Hersir, G.P., 1988: One dimensional inversion of Schlumberger resistivity soundings (computer program, description and user's guide). Report 8, 59 pp.

1987

Gudmundsson, J.S., and Björnsson, J., 1987: Eighth annual report of the Geothermal Training Programme in Iceland, March 1986 - February 1987. Report 1, 53 pp.

Bödvarsson, G., 1987: Geothermal reservoir physics. Report 2, 131 pp.

Lund, J.W., 1987: Direct use of geothermal energy. Report 3, 150 pp.

Zhou Xixiang, Zhong Benshan and Eyjolfsson, B., 1987: Finite element resistivity modelling using specialized mesh structure. Report 4, 79 pp.
